PROFESSIONAL SUMMARY

Versatile Data professional with hands-on experience in both Data Science and Data Analytics, building end-to-end machine learning pipelines and interactive business intelligence dashboards. Achieved 96% model accuracy, and reduced reporting time by 70%. Skilled in machine learning, deep learning, NLP, Power BI, Tableau, and SQL — with a strong focus on translating complex data into scalable, production-ready AI solutions and actionable business insights.

CORE SKILLS

Data Science & AI - Machine Learning: Classification, Regression, Clustering - Deep Learning: CNN, RNN, Neural Networks - Natural Language Processing (NLP) - TensorFlow, PyTorch, Scikit-learn - Feature Engineering & ETL Pipelines	Data Analytics & BI - SQL (MySQL, SQL Server) - Power BI (DAX, Data Modeling, ETL) - Tableau Dashboard Development - KPI Design & Business Metrics - Data Visualization & Storytelling
Programming & Libraries - Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly) - Exploratory Data Analysis (EDA) - Data Cleaning & Transformation	Databases & Deployment - MySQL, SQL Server - Streamlit App Deployment - ETL Pipelines & Automation

KEY PROJECTS

Predictive Marketing Analytics (End-to-End ML Pipeline) • Tools: *Python, Scikit-learn*

- Built ML pipeline using Random Forest achieving 89.3% accuracy
- Improved recall from 35% → 50% via threshold tuning
- Increased campaign ROI by 23% through predictive targeting

Customer Churn & Profit Optimization (ML + BI) • Tools: *Python, Scikit-learn, SHAP, Streamlit, Power BI*

- Developed a revenue-driven ML pipeline addressing a 26.5% churn rate, targeting a potential \$3.68M revenue loss
- Optimized Model Recall & AUC to minimize false negatives, ensuring high-risk customers are identified before churning
- Engineered a Profit-Based Priority Score ($\text{Prob} \times \text{CLTV}$) to maximize retention ROI and optimize budget allocation
- Deployed an XAI-powered Streamlit app with real-time SHAP explanations; also delivered Power BI dashboard with EDA & CLTV insights (~\$4.4K)

Intel Image Classification (CNN & Transfer Learning) • Tools: *Python, TensorFlow, EfficientNetB0, OpenCV*

- Achieved 93.6% test accuracy by transitioning from custom CNN to fine-tuned EfficientNetB0 architecture
- Resolved severe overfitting (83% Train / 69% Test) using advanced regularization and learning rate schedules
- Executed a two-phase training strategy (Frozen Extraction → Controlled Fine-tuning) to maximize generalization

Commerce Operations & Performance Analysis • Tools: *SQL, Power BI*

- Analyzed \$15.8M+ sales dataset to identify operational inefficiencies and logistics delays averaging 9.28 days
- Identified payment behavior trends (78% credit card usage) to improve decision-making for logistics & CX

Sales & Customer Intelligence Dashboard • Tools: *Tableau*

- Transformed fragmented reports into unified dashboards tracking 10+ KPIs
- Reduced reporting time by 70% through automation; identified key segments generating 65% of revenue
- Enabled data-driven retention strategies → reduced churn by 12%

Movie Industry Data Analysis • Tools: *Power BI*

- Analyzed 4,000+ movies to evaluate budget vs. revenue relationships, revealing \$528B revenue vs \$170B budget
- Developed a Weighted Rating model combining quality and vote count for better performance measurement

TECHNICAL STRENGTHS

- Building end-to-end AI pipelines: Data → Modeling → Deployment-ready solutions
- Designing interactive BI dashboards and KPI frameworks that drive business decisions
- Applying NLP techniques for text analysis and intelligent systems
- Designing and training deep learning models (CNNs & RNNs)
- Translating complex business problems into data-driven AI products and analytics solutions

CERTIFICATIONS

- Associate Data Scientist – DataCamp - Machine Learning – Coursera - AI Foundations Associate – Oracle - Data Science & Machine Learning – Edraak	- Google Data Analytics – Coursera - Data Analyst Track – DataCamp (Python, Power BI, Tableau) - SQL & Advanced SQL – 365 Data Science - AI and Data Science Diploma – Instant Software Solutions
---	--

EDUCATION

Bachelor's Degree in Navigation Science & Space Technology

Beni Suef University • 2021 – 2026

LANGUAGES

Arabic (Native) **English** (Intermediate)
